

**USE OF BIOLOGICAL HAZARDS IN ANIMAL STUDIES FORM**

**Approval must be obtained from the IACUC before this study is performed. Before any study involving the administration of biological agents to animals, the Biohazard Committee must review and approve the use. The IACUC will forward this form to the Biohazard Safety representative. The IACUC considers Biological Hazards materials such as various infectious agents (bacteria, fungi, viruses, parasites and other).**

1	Principal Investigator		e-mail			
2	Title of Project					
3	Strain	Pathogen	# of animals /study	# of animals experiment/study	Dose	Route
4	Project start date: mm/dd/yyyy					
5	Length of time over which experiments will be performed					
6	Location where administration will occur:		Room#		Building	
7	Location where pathogen-labeled animals will be housed		Laboratory		Animal facility room	
8	Length of time before the animal is being sacrificed					

**REQUIREMENTS:**

**UNLESS AN EXEMPTION IS GRANTED BY THE BIOSAFETY SAFETY COMMITTEE, THE FOLLOWING REQUIREMENTS ARE MANDATORY:**

- In the Animal Resource Center, all cages with animals must be labeled with a “Caution Biosafety Material” label stating the pathogen and amount per animal, administration date, and the authorized user name.**
- Animal cages must be appropriately surveyed for contamination before being returned to the Animal Resource Center washer.**  
**Animal carcasses that are disposed of as radioactive waste must be packaged separately. Do not include any other material such as pads, tubing, needle, instruments, etc., with the carcass.**
